GRANDE BRETAGNE

NOTIFICATION OF TRANSMITTAL OF THE INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY (PCT Rule 71.1)

Date of mailing
(day/month/year)

08.07.2005

Applicant's or agent's file reference
P35509WONCB

IMPORTANT NOTIFICATION

International application No.
PCT/IB2004/001702

International filing date (day/month/year)
23.04.2004

Priority date (day/month/year)
23.04.2003

Applicant
JAGOTEC AG

1. The applicant is hereby notified that this International Preliminary Examining Authority transmits herewith the international preliminary report on patentability and its annexes, if any, established on the international application.
2. A copy of the report and its annexes, if any, is being transmitted to the International Bureau for communication to all the elected Offices.
3. Where required by any of the elected Offices, the International Bureau will prepare an English translation of the report (but not of any annexes) and will transmit such translation to those Offices.
4. **REMINDER**

The applicant must enter the national phase before each elected Office by performing certain acts (filing translations and paying national fees) within 30 months from the priority date (or later in some Offices) (Article 39(1)) (see also the reminder sent by the International Bureau with Form PCT/IB/301).

Where a translation of the international application must be furnished to an elected Office, that translation must contain a translation of any annexes to the international preliminary report on patentability. It is the applicant's responsibility to prepare and furnish such translation directly to each elected Office concerned.

For further details on the applicable time limits and requirements of the elected Offices, see Volume II of the PCT Applicant's Guide.

The applicant's attention is drawn to Article 33(5), which provides that the criteria of novelty, inventive step and industrial applicability described in Article 33(2) to (4) merely serve the purposes of international preliminary examination and that "any Contracting State may apply additional or different criteria for the purposes of deciding whether, in that State, the claimed inventions is patentable or not" (see also Article 27(5)). Such additional criteria may relate, for example, to exemptions from patentability, requirements for enabling disclosure, clarity and support for the claims.

**INTERNATIONAL PRELIMINARY REPORT
ON PATENTABILITY**International application No.
PCT/IB2004/001702**Box No. I Basis of the report**

1. With regard to the **language**, this report is based on the international application in the language in which it was filed, unless otherwise indicated under this item.
 - ☐ This report is based on translations from the original language into the following language , which is the language of a translation furnished for the purposes of:
 - ☐ international search (under Rules 12.3 and 23.1(b))
 - ☐ publication of the international application (under Rule 12.4)
 - ☐ international preliminary examination (under Rules 55.2 and/or 55.3)
2. With regard to the **elements*** of the international application, this report is based on *(replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report)*:

Description, Pages

1-18 as originally filed

Claims, Numbers

1-10 as originally filed

- ☐ a sequence listing and/or any related table(s) - see Supplemental Box Relating to Sequence Listing
3. ☐ The amendments have resulted in the cancellation of:
 - ☐ the description, pages
 - ☐ the claims, Nos.
 - ☐ the drawings, sheets/figs
 - ☐ the sequence listing (*specify*):
 - ☐ any table(s) related to sequence listing (*specify*):
 4. ☐ This report has been established as if (some of) the amendments annexed to this report and listed below had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).
 - ☐ the description, pages
 - ☐ the claims, Nos.
 - ☐ the drawings, sheets/figs
 - ☐ the sequence listing (*specify*):
 - ☐ any table(s) related to sequence listing (*specify*):

* If item 4 applies, some or all of these sheets may be marked "superseded."

**INTERNATIONAL PRELIMINARY REPORT
ON PATENTABILITY**

International application No.
PCT/IB2004/001702

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Yes: Claims	2-4, 6-8
	No: Claims	1,5,9,10
Inventive step (IS)	Yes: Claims	2-4, 6-8
	No: Claims	1,5,9,10
Industrial applicability (IA)	Yes: Claims	1-10
	No: Claims	

2. Citations and explanations (Rule 70.7):

see separate sheet

**INTERNATIONAL PRELIMINARY
REPORT ON PATENTABILITY
(SEPARATE SHEET)**

International application No.

PCT/IB2004/001702

Re Item V.

1. The following documents are referred to in this communication:

D1 : US 3 125 491 A (ELOWE L. N ET AL) 17 March 1964 (1964-03-17)

D2 : US 3 048 526 A (BOSWELL CHARLES L) 7 August 1962 (1962-08-07)

D3 : EP 0 519 099 A (SQUIBB BRISTOL MYERS CO) 23 December 1992 (1992-12-23)

2. The present application does not satisfy the criterion set forth in Article 33(2) PCT because the subject-matter of claims 1,5,9,10 is not new in respect of prior art as defined in the regulations (Rule 64(1)-(3) PCT).

Document D1 discloses a compressed coated tablet with a colorant in the core (see example 1). The composition disclosed in D1 is granulated with a solution comprising a red dye F.D. and C (see col. 3, l. 23-30) which is therefore comprised within the core composition and not coated around the core. It is considered that any dye will contrast the core from the coating, since it provides a different colour to the core. In addition red dye F.D. and C is cited in the present application as a suitable dye (see the description of the present application, page 4, l. 25-31).

This core composition is further coated by a sugar coating.

Consequently, the subject-matter of claims 1,5,9,10 is not new over D1 (Article 33(2) PCT).

Document D2 discloses a compressed coated tablet with a different colour in the core than in the mantle (see col. 5, l. 35-41). This is used to control the final tablet. The mantle coating does however not surround completely the core composition.

D3 relates to compression coated formulations with a colorant in the external part of the tablet (see example 1).

3. The document D2 appears to be of particular relevance as far as inventive step is concerned (Article 33(3) PCT). This document addresses a slightly different problem than the present application, namely making a tablet with colour as direct mean of visual control. The problem of control of the displacement of the core is therefore not related in this document, which does not disclose a complete surrounding coating.

**INTERNATIONAL PRELIMINARY
REPORT ON PATENTABILITY
(SEPARATE SHEET)**

International application No.

PCT/IB2004/001702

The skilled person would not try to change the characteristics of document D2 to solve the problem of the present application as far as novel.

Consequently, the subject-matter of claims 2-4, 6-8 is inventive over D2 (Article 33(3) PCT).
